

BERGEN COUNTY HEALTH CARE CENTER  
*A distinguished reputation for quality care.*

April 30, 2021

Dear BCHCC family,

It is a pleasure to see the increased in person visitations that are taking place here. Visits by family and friends provide an essential infusion of love and caring that are priceless for our residents. While we provide all appropriate clinical care, in-person family visits, are the most natural and sustaining ingredient that only families can provide. The conversations between families and residents stimulate memories and produce warm feelings that continue even after the visit is over. All visits, including in person, Skype and window, are arranged by our Activity Department. Please call them at (201) 750-8310 and arrange it with them.

- Testing of all employees for COVID-19 twice a week is continuing. The results provide us with a continuous source of information about the COVID status of our staff. Currently residents are not being tested. All results of the tests have been negative.
- Required PPE equipment for staff and residents is provided to us by Bergen County. Our inventory remain robust.
- Installations of air purifiers is continuing throughout the facility. The system reduces the presence of airborne germs, allergens and odors.
- Family Circle Virtual meetings take place Monday evenings at 7pm with our Administrator. It provides a regular time for us to share information with you about important activities taking place here. These include visitation, protocols, testing results and important areas that give you a picture of life at BCHCC. It offers an opportunity for your questions and comments. Invitations to all are sent out on Fridays.
