If the COI and Hold Harmless Agreement are not provided within 2 weeks after notification of approval of application, your permit will be cancelled.

The Certificate of Insurance must show a minimum of \$1,000,000 per occurrence, \$2,000,000 aggregate General Liability and \$10,000/person Medical Expense. If athletic participants are excluded from the General Liability Policy, then the County requires Student Accident Insurance covering the athletic participants for a minimum of \$10,000/person. THE COUNTY OF BERGEN AND ITS OFFICIALS, EMPLOYEES AND AGENTS must be named as ADDITIONAL INSURED and COUNTY OF BERGEN shown as CERTIFICATE HOLDER.

- Please make sure the term of the insurance (effective date to expiration date) falls within the dates you anticipate using the Bergen County Department of Parks facilities. Failure to do so may lead to rejection of permit.
- All competing teams covered under the same insurance must be listed by name on the certificate.
- Insurance certificates for all teams (the Applicants and its competitors) must also be submitted.
- If the athletic participant is covered under the General Liability Medical Expense, it must state so on the certificate.
- The Board of Education or Business Office for School Applicants must notify their insurance company (agent) of the insurance requirements and the above underlined paragraph so that the agent can send the School the Certificate of Insurance. It is the School’s responsibility to email a PDF of the COI to [parkpermits@co.bergen.nj.us](mailto:parkpermits@co.bergen.nj.us).
- Schools must submit both general liability and student accident insurance covering the athletes for you and your opponents before you can play on Bergen County fields. If you have any questions concerning this matter, please call the office of permits and specials events at (201) 336- 7261.

**Return to Play Guidelines for Athletic Fields**

The health and safety of Bergen County residents is our number one priority. These guidelines are intended to mitigate the risk of organized sports activities.

The public health data on which this document is based can and do change frequently. As such these guidelines and the dates contained within are subject to change. You are encouraged to keep informed of guidance from both the New Jersey Department of Health and the Center for Disease Control and Prevention (CDC), which may change regularly.

The Risk of COVID-19 spread can be different depending on the type of activity and person to person contact involved. The more people a participant interacts with, the closer the physical interaction, the more sharing of equipment there is by multiple players, and the longer that interaction, the higher the risk of COVID-19 spread. The risk of COVID-19 spread increases in sports settings as follows:

- **Lowest Risk:** Performing skill-building drills or conditioning at home, alone or with family members.
- **Increasing Risk:** Team-based practice.
- **More Risk:** Within-team competition.
- **Even More Risk:** Full competition between teams from the same local geographic area.
- **Highest Risk:** Full competition between teams from different geographic areas.

The following timeline must be followed (dates are subject to change):

Risk Level	Examples	Important Dates
High Risk - Sports that involve close, sustained contact between participants	Rugby, boxing, judo, karate, taekwondo, wrestling, pair figure skating, football, group dance, group cheer	No-contact practices: June 22 Contact practices and competitions: July 20
Medium Risk - Sports that involve some close, sustained contact, but with protective equipment in place between participants OR intermittent close contact OR group sports OR sports that use equipment that cannot be cleaned between participants	Lacrosse, hockey, multi-person rowing, multiperson kayaking, multi-person canoeing, water polo, swimming relays, fencing, cycling in a group, running in a close group, group sailing, volleyball, soccer, basketball, baseball/softball, short track	No-contact practices: June 22 Contact practices and competitions: July 6
Low Risk - Sports that can be done individually, do not involve person-to-person contact and do not routinely entail individuals interacting within six feet of one another	Archery, shooting/clay target, individual running events, individual cycling events, individual swimming, individual rowing, individual diving, equestrian jumping or dressage, golf, individual sailing,	Practices and competitions: June 22

**ACKNOWLEDGMENT FORM**

As a condition of being granted the permit applied for, I agree to comply with the following guidelines:

1. When possible, limit practice activities to those that do not involve person-to-person contact between athletes and/or coaching staff. For example, focus on individual skill-building activities rather than on competition.
2. Consider dividing larger teams into smaller groups and staggering practices at different times or across different days to limit contact between groups and/or players.
3. Consider creating consistent groups of the same staff, volunteers, and athletes, that remain together and work through stations, rather than switching groups or mixing groups.
4. Encourage athletes to use their own equipment to the extent possible. Discourage sharing of equipment and items that are difficult to clean, sanitize, or disinfect.
  - a. Do not permit athletes to share food, beverages, water bottles, towels, clothing, pinnies, gloves, helmets or any other equipment or materials used to wipe their face or hands or that is involved in direct bodily contact.
  - b. If equipment is shared, coaching staff should be aware of the sanitation procedures for team equipment (balls, bats, etc.) and sufficient disinfecting wipes or similar products should be made available.
  - c. Make sure there are adequate supplies of shared items to minimize sharing of equipment to the extent possible (e.g., protective gear, balls, bats, water bottles); otherwise, limit use of supplies and equipment to one group of players at a time and clean and disinfect between use.
  - d. Clean and disinfect shared equipment at the end of a practice session using a product from the list of disinfectants meeting EPA criteria for use against the novel coronavirus.
  - e. Keep each player’s belongings separated from others and in individually labeled containers, bags or areas.
5. All athletes, coaches, and staff should bring their own water and drinks to practice activities. Team water coolers for sharing through disposable cups should not be permitted

6. Individuals shall remain 6 feet apart from one another whenever possible. This applies to athletes, coaching staff, parents/guardians, and other spectators. During times when players are not actively participating in practice or competition, attention should be given to maintaining social distancing by increasing space between players on the sideline, dugout, or bench.
  - a. Coaches can encourage athletes to use downtime for individual skill-building work or cardiovascular conditioning, rather than staying clustered together.
  - b. Identify adult staff members or volunteers to help remind coaches, players and staff of social distancing. Use of signs, tapes or physical barriers can be used to assist with guiding social distancing requirements.
7. Parents and coaches should assess level of risk based on individual players on the team who may be at higher risk for severe illness, such as children who may have asthma, diabetes, or other health problems.
8. Limit any nonessential visitors, spectators, staff, volunteers, vendors, members of the media, and activities involving external groups or organizations as much as possible.
  - a. Coaches, staff, visitors and athletes will be required to abide by the gatherings limitations outlined in Executive Order No. 152 (2020), or the Order in effect at the time of practice or competition.
  - b. Visitors and spectators should wear face coverings at all times, unless doing so would inhibit the individual's health or the individual is under the age of two.
9. Coaching staff and parents/guardians should wear cloth face coverings. Athletes are also encouraged to wear cloth or disposable face coverings when not engaging in vigorous activity, such as when sitting on the bench, when interacting with an athletic trainer, etc. Face coverings should not be worn by staff or athletes when engaging in high intensity aerobic or anaerobic workouts, or where doing so would inhibit the individual's health.
10. Do not allow spitting and encourage everyone to cover their coughs and sneezes with a tissue or use the inside of their elbow. Used tissues should be thrown in the trash and hands washed immediately with soap and water for at least 20 seconds.
11. Restrict handshakes, high-fives, team huddles, and any other close-contacting activities.
12. Screen athletes, coaches, staff and others participating in practice sessions, via temperature check and health questionnaire, at the beginning of each session. Players, coaches, staff, and volunteers showing symptoms of COVID-19 shall not be permitted to participate. If any individual develops symptoms of COVID-19 during the activity, they should promptly inform organizers and must be removed from the activity and instructed to return home.
13. All staff should be educated on COVID-19 health and safety protocols prior to the resumption of athletic activities, including:
  - a. Revised practice rules and regulations in place during COVID-19;
